SHEEP DOG DISPLAY

David is an experienced sheep and arable farmer who manages a flock of 600 breeding ewes. His unique and captivating display involves up to five skilled sheepdogs, all of whom work together to demonstrate the traditional art of sheep herding. The live commentary for the demonstration is provided by his wife, Barbara, adding depth and insight into the performance.

The demonstration showcases the impressive skill and dedication required of a working sheepdog in its daily tasks. Each dog's distinct character and abilities are highlighted, giving the audience a deeper appreciation of the bond between the dogs and their handler. David's show is not only educational but also highly entertaining.

David's display is a celebration of rural life and the vital role of sheepdogs in farming, offering a delightful blend of education, entertainment, and audience interaction.

THE SHEEP SHOW

This fun-filled presentation introduces onlookers to 9 different breeds. Each has a story to tell with interesting facts and figures relating to their variety. Each taking their place on stage accompanied by their very own theme tune. Nobby the Norfolk Horn is the star of the show... and he knows it!

Following the Woolly antics of their introduction, we give a live shearing display accompanied by an informative narrative where audiences learn the reasons we shear the sheep and about the complexities of types of wool. And if that's not enough, we round it off with our star-studded flock treating us to **"The Sheep Show Shuffle"**, yes, you heard it here first, our very own... **"Strictly Come Baaa ...ncing"**! What would Craig say!?
